

Aliens Of Bathgate

One cold night a hunter named Andy went for a walk in the Bathgate Hills. He was half way through some trees and suddenly heard rattling from a nearby bush - he ignored it, he thought it was just a fox/raccoon. He continued his walk and passed the trees. He walked up a nearby hill to look at the view, a breeze occurred. Then he looked around, he suddenly saw something glowing in the sky, it fell, he ran to the direction of the area, a gust of smoke striked in the air, it was hard to see, when he got his vision back something hit him, he couldn't move, then he got grabbed by 8 arms and thrown in a mysterious box of goo.

He heard a weird voice - perhaps a noise - he realized he got kidnapped by aliens. After months of torture he has returned to earth, he ran home as he was passing people they all screamed and ran away, he looked in a mirror and realized, He was turned into a 6 armed tellitabby. with big popped out eyes
