diary

Dear diary,

Stuck in Mars

I Woke up on the 22nd of August 2022 at 8:22am
I started by planning my day first thing is go
a run, then go out for lunch with my friend EVA,
and the last thing is going shopping.

So after a quick breakfast I headed out for my
run. I decided to do my run at the Bathgate hills.
I was about 15 minutes into it when I felt some-
thing pull at my leg and feel my body go numb like
pins-in-needles. I turned around and all I remember
is being sucked in by a UFO. then the rest is a
blur.

that brings us to now its god knows what time,
IM pretty sure IM on Mars theres no one here and
no wife.

update: IM now stuck in a UFO tied up by Marshans
? I have no clue what there saying to me and I just
want to go home. Maybe if I get lucky they will
take me home but until then IM stuck in Mars!

finally it 10:15 and IM in a Motel in Germany
where the alien people agreed to take me home
thank goodness anyways. -
goodnight *Maybe*
