

Lost In Beecraigs

One day I went to Beecraigs. I went with my mum and my friends called Annie and Rory also my brother Miles. It was a Sunday morning. We agreed to go on a walk well my mum was going to get something to eat. We all walked into the woods. It started to get cold but at least I had a jacket.

My brother kept trying to scare me. I said we probably should start to head back but every one said No! and kept walking on. I said I was going to head back and they just said ok.

Then I got to a path it had just go right or left I decided to go left. It was just a normal path it felt like I was walking for hours though. Then realised that this was the wrong path I started to panic. So I started to go back the way but it ended up as a dead end.

Then I came off the path and went through the woods. The woods took me into a dark den it was so cool. I had no phone with me but it started to get colder. Then out of nowhere a little boy came walking out of the den. He said his name was Arlo and he got lost. I said I got lost too. He said maybe go and try to find the way back. So we started to walk back through the woods. Then we got to a path. Then Arlo said this

is the way he came from. So we went that way. Then we got to the end of the path and we got to the park. I saw my mum and my friends. I busted out in joy and also found he mum and dad too. My mum said we better go home and have dinner before you get lost again.
