

Our Adventure at Beeccraigs

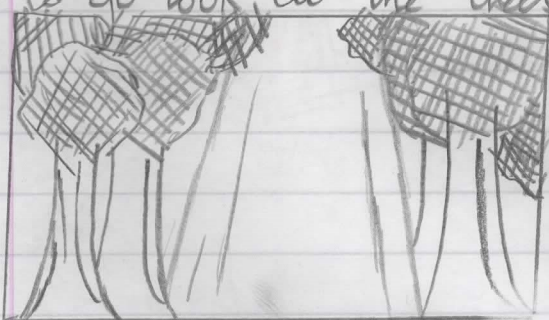

Our adventure at Beecrings

It was a lovely day at Beecrings as I was sitting at the picnic table eating whatever was inside my pack lunch with my younger sister and watching all the children playing at the play park climbing the Spider web going down the slide and some people were even getting ice cream ooo yum! Our mum had dropped us off while she would go on a run through the forest near the park.

My sister's name was Monika. She had long silky ginger hair tied up in a pure white bow and had dark brown eyes that almost looked black and I

had dark long brown hair and dark brown eyes as well as hers. We both thought about going in the forest next to the park there were huge trees as tall as a 10 storey apartment and it would get darker as we would go through the forest my sister Monika said we should go on a walk through the forest to go look at the trees and look at new places.

So I agreed with my sister and we went through the forest.

As we were we were walking we had walked pretty far so both of us could see none

in our site hm maybe we should go in there!

Monika pointing at a pitch black forest part of the forest I had a worried feeling about the going through there and my sister told me she had been in there lots of times before so we would be fine I agreed because I trusted my sister right?

the trees were bigger and blocking the Sun light that was trying to break threw and there were huge looking rocks that you could stumble upon out of nowhere I turned around to look at my Sister and She was gone my heart sunk and I was confused of where she could of gone I Started shouting her name but no answer then I ran around every where but could not see her then I Started running back to the Start of the forest and trying to tell people how I lost my Sister then I Saw coming back from her walk to look for us I told her everything and She ran into the forest and found her foot stuck on a huge rock "help!" She Screamed and we both came and got her unstuck by pulling her out. Today was a crazy day I hope something like this never happens again.
