

The Shadowmonsters game at Beercaigs

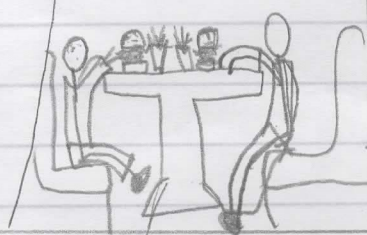

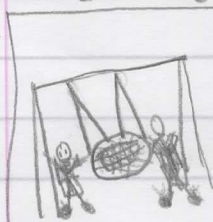

The Shadow Monsters game at Beecraigs

My mum dropped me and Griggin at Beecraigs where we went to the play park and played for one hour. Then we went and got some good food from the canteen. We both got a burger that was as big as a laptop and some chips. After we finished the food we went for a walk into the forest to finish the day off.

I felt that someone was following us so I turned around and saw a mysterious shadow figure running away so I told Griggin "we should speed up because I saw a figure in the shadows" but he didn't believe me.

We went back to go home but the trail didn't point in the right way but we had to stick to the trail so we went on the trail and saw a sign that said "want to play a game" so we accepted it and got teleported into a creepy house.

the trees were as tall as the clouds we could hear birds chirping.
